

Job Title: Fleet Medical Advisor

Location: Remote / Flexible

About Health4Crew:

Health4Crew is a dedicated healthcare service provider focused on the overall well-being of seafarers. We offer a range of services, including preventive healthcare, fleet insights, emergent healthcare, and training, to ensure that seafarers stay healthy and safe at sea. Our mission is to make maritime healthcare easily accessible and provide peace of mind to both seafarers and shipping companies.

Job Overview:

We are seeking a qualified and motivated Fleet Medical Advisor to join our team. The role will involve overseeing pre-employment medical examinations (PEMEs), providing second opinions, answering medical-related calls (initially under supervision), and assisting in the creation of medical materials (fliers, posters, etc.) for shipping companies.

Key Responsibilities:

- **Upload and Manage PEMEs:** Upload pre-employment medical examination (PEME) results to the Health4Crew platform and ensure proper documentation.
- **Review and Second Opinion:** Review PEME results, providing expert second opinions on any discrepancies or issues raised in the reports.
- **Assist with Calls:** Be available to answer calls related to medical inquiries, providing support to seafarers and shipping companies, with supervision during the initial stages.
- **Medical Material Creation:** Assist in the creation and design of medical materials such as fliers, posters, and other promotional content aimed at raising awareness of health and safety issues for shipping companies.
- **Collaboration:** Work closely with other healthcare professionals and the Health4Crew team to ensure seafarers' health needs are met and provide insights on medical trends within the fleet.
- **Ongoing Learning:** Stay updated with the latest developments in maritime medicine and healthcare trends, ensuring all advice and recommendations align with industry best practices.

Requirements:

- Medical qualification (Doctor, Nurse, or equivalent).
- Excellent communication skills with the ability to explain complex medical information clearly.
- Ability to work independently and as part of a team.
- Proficient in using digital tools for documentation and medical material creation (experience with design software is a plus).
- Attention to detail and high standards of accuracy.
- Fluency in English is required. Other languages is a plus.

Preferred Skills:

- Experience with telemedicine or remote consultations.
- Ability to work under pressure and manage multiple tasks effectively.

What We Offer:

- The opportunity to join a rapidly growing start-up company with the potential for significant personal and professional growth as we expand.
- A chance to make a real impact in shaping the future of maritime healthcare for seafarers.
- Flexible working environment.
- Exposure to diverse, dynamic challenges and the opportunity to contribute to the development of innovative solutions in a forward-thinking team.
- As a start-up, financial compensation may not be competitive at this stage, but there are long-term growth opportunities as the company scales.
